## Our Story

*Our collection of rides and side stalls makes us the largest travelling vintage funfair in the world!*

### What is Carters Steam Fair?

Carters Steam Fair is a traditional English travelling funfair with rides dating from the 1890s to the 1960's. We are a unique piece of living history. Over the past 40 years we have been rescuing and restoring vintage fairground rides and attractions taking them on tour around London and the South East for everyone to enjoy.

One of the features which makes Carters Steam Fair unique is the decoration of its engines, rides and transport with consistently superb signwriting, lining and traditional fairground decoration created by Joby Carter and his team. Joby is a leading expert on the traditional craft of sign writing and fairground art and hosts training courses at the Carters Yard throughout the year.
